GERMANS DECLARE ARMS VICTORIOUS ON BOTH FRONTS

Official Berlin Report Announces Successes Against Enemies in Belgium and in Poland.

OVER 14.000 RUSSIANS TAKEN

Sixty-Nine Cannon and 255 Machine Guns Captured from the Slavs.

FRENCH ATTACKS ARE REPULSED

BERLIN, May 13 .- (Via London.) The German war office announced today that in the recent fighting in Galacia and Russian Poland 14,500 Russian prisoners had been captured. It also stated that sixty-nine cannon and 255 machine guns had been taken from the Russians and that the victorious Austrian-German forces, continuing their advance eastward in Galacia, are now approaching the fortress of Przemysl.

Victory in West.

The statement follows: "Western theater: East of Ypres we | took another point of vantage from the enemy. In the afternoon strong French attacks on our front from Ablain to Neuville were repulsed with very heavy loases to the enemy. The village of Carency and the western part of Ablain, which are for the greater part included in the territory held by the French, as the result of their occupation of our foremost trenches, between Neuville and Carency, were, however, evacuated last night. Unfortunately on this occasion, a number of our brave men and much material gain were lost. "French attempts to recapture a sec tion of their trenches, which we took from them northwest of Berry-Au-Bac, in the woods southeast of Nil-Aux-Bois, were without success.

the enemy attacked our positions between the Meuse and the Moselle last night. At Oroyp Des Carmes, they succeded in pentetrating a section of our foremost trenches, stretching over & width of 150 to 200 meters. After bitter hand-to-hand fighting our positions were again cleared of all Frenchmen. A number of prisoners remained in our hands. "Two French blockhouses on the west-

ern slopes of Hartmans-Wellerkopf were destroyed b your fire. "Eastern theater: The situation is the same. The battle of Szawle (Russian

Southeastern theater: The army under General von Mackenzen in the course of its pursuit of the Russians, reached yes-terday the neighborhood of Sublects on the lower Wisloka and Kolbuezowa, the Russians also retreating under the pressure of this advance from their positions north of the Vistuia. In this section the troops under General Woyrech, closely following the enemy, penetrated as far as the region northwest of Kielce.

Conquers Two Hills. "In the Carpathians Austro-Hungarian

Linsingen conquered the hills cast of the upper Stry and took 3,650 men prisoners, as well as capturing six machine guns.

"At the present moment, while the armies under General von Mackensen are approaching the Przemysl fortress and the lower San, it is possible to form an approximate idea of the booty taken. In the battles of Tarnow and Gorlice and in the battles during the pursuit of these armies, we have so far taken 103,500 Russians prisoners, sixty-nine cannon and twenty-five machine guns. In these figures the booty taken by the allied troops fighting in the Carpatians and north of the Vistula is not included. This amounts to a further 60,000 prisoners."
